UNITED WAY
Southeast Missouri

2024 2025 IMPACT REPORT

United Way of Southeast Missouri is here whenever our neighbors need support. We listen, we learn, and we act with compassion. While these numbers reflect the final 2024-25 fiscal year of our funding cycle, 2025 has been one of meaningful transformation for both our organization and the families we serve. These changes would not have occurred without you.

We finally purchased and moved into our own building, enabling us to open the region's only United for Childcare Resource Center to support working families, employers, and childcare providers. United We Work began its second year of providing desperately needed transportation to help Missourians obtain and retain the dignity and stability of employment. UWSEMO finds critical solutions for big challenges that can't be solved alone. With your continued support, we will move more Southeast Missourians from striving to thriving. Thank you for caring enough to give!

37,396 People helped through United Way of Southeast Missouri

UNITED IS THE WAY

Taking action together so all can thrive.

United we WORK

Like most programs we invest in, United We Work provides immediate assistance and helps move people away from needing assistance. Participants meet with one of our banking partners to learn how to budget and save for future transportation needs. Most have never created a budget or entered a bank.

(Data from January 2024 through December 2025)

When children thrive communities thrive.

United For Childcare
Resource Center

United Way of Southeast Missouri has opened the United for Childcare Resource Center, a new hub designed to strengthen childcare access across the region.

The center supports families with childcare planning, identifying quality care, and accessing financial assistance. It also unites parents, providers, and employers in one location to help expand childcare availability, bolster the workforce, and improve economic mobility for families. Its opening reflects United Way's continued commitment to investing in the earliest years.
